

LOVE WITHOUT AGENDA +

2011 Press & Media Fact Sheet

What are your dreams to change your neighborhood and the world?

While most companies attract people to their vision and get everyone to do it—Love Without Agenda asks you about your dreams and then makes every effort to help you. Our Coalition, our legal structure and eventually our Glocal website all are designed to equip the work of social innovators and volunteers across the globe.

LWA is a service organization building a Yelp styled social engagement website. This will operate as a social enterprise company called GLOCAL—with profits from the website funding social innovators across the globe.

We catalyze three areas that build a stronger coalition and are leading to our GLOCAL platform!

Our **Action** equips you: These 3 free vehicles give people and businesses collaborative spaces to practice loving and serving others with others, and provide incubators for creative and collaborative projects that LWA people dream up.

- LWA Meetups: Free & across the globe. These communities gather to serve/converse together locally
- LWA Coalition: Collaborative business partners providing service opportunities for volunteers
- LWA Extended Partnerships: Social innovators can legally create a tax deductible chapter of LWA

Our **Message** inspires you: You can change the world—and yourself—one act of love at a time. What is Love? Love is recognizing others inherent & irrevocable value—and steadfastly acting upon it. We champion you to change the world thru loving and serving others, and we're committed to helping you not have to do that alone.

Our **Products** stir you: We design dynamic, thought provoking products that equip you to reorient your mindset and spark conversations within your community. We collaborate with local partners to host LWA events that draw attention to ways your local service partners are engaging society and celebrate the good work currently going on

We're working hard to change the world—and ourselves—one act of love at a time.
